Petition Under 37 CFR 1.181 To Withdraw Holding of Abandonment of a Patent Application Based on Failure to Receive Office Action or in the alternative, Petition for Revival of Holding of an Unintentionally Abandoned Patent Application Under 37 CFR 1.137(b)

Dear Sir:

Pursuant to 37 CFR §1.181 the undersigned hereby petitions to withdraw the holding of abandonment issued in connection with the above-identified patent application.

On **October 24, 2001**, Applicant's Attorney received by mail the Notice of Abandonment which had been date stamped **September 26, 2001** by the Patent and Trademark Office and which indicated that the application had been abandoned.

BEST AVAILABLE COPY

RECEIVED  
JAN 04 2001  
OFFICE OF PETITIONS  
DEPUTY AC PATENTS

It is respectfully submitted that Applicant did not receive the notification of Missing Requirements dated **February 21, 2001** for the above-identified application. Accordingly, Applicant respectfully petitions the Commissioner to withdraw the holding of abandonment in the application.

The present Petition includes the following facts and documentation: (a) a summary of the procedures and controls used by the Firm when correspondence is received by the Firm from the Patent & Trademark Office; and (b) a summary of how these procedures and controls were followed in the above-identified application. Also enclosed is a copy of two different dockets (Appendices A and B) of the Firm which span the relevant time period when the notification of Missing Requirements dated **February 21, 2001**, if received, would have been docketed by the Firm (e.g., within one month following the date of the notification of Missing Requirements).

On a daily basis, all mail from the U.S. Patent and Trademark Office delivered to the Firm is directed to a central docket clerk who opens and date stamps each document. The chief Docket Administrator or Docket Administrator Assistant then reviews each correspondence from the Patent and Trademark Office (hereafter referred to as an "Office Action") to determine the appropriate due date for responding to the Office Action. The due date for responding to the Office Action is then noted on the cover sheet of the Action, including not only the initial due date, but also each possible extension date until the end of the statutory period, if applicable.

After noting the due date(s) for responding to the Office Action on the front of the Action itself, the Docket Administrator obtains the file for the patent application in which the Office Action has been received and also notes the due date(s) for responding to the Action on the cover of the file itself. The file, with the Office Action attached to the front, is then delivered to the appropriate attorney(s) responsible for handling the case and responding to the Office Action.

In addition to the above, the Docket Administrator enters the due date(s) for responding to all Office Actions received from the Patent & Trademark Office in *two separate central docketing systems* of the Firm. The first docketing system is a *computerized docketing system* which utilizes a licensed computer program called PC Master ®. All due dates (including any

available extension dates) for responding to Office Actions received from the Patent and Trademark Office are entered into this computer program on a daily basis. The information entered into the computerized docketing system includes the serial number and internal reference number of the application in which the response is due, the attorney(s) handling the application, and a description of the type of response due (i.e., missing requirements and surcharge).

Once entered into the computer, these docket entries are sorted by due date and attorney responsible for the action. They are then printed out on both a weekly and monthly basis and are distributed to the appropriate attorneys within the firm.

A copy of the Firm's computerized docket printout for the dates of **March 1-31, 2001** through **April 1-30, 2001** (well after the notification of Missing Requirements would have been received by the Firm and entered into the computerized docketing system on the due date of **March 21, 2001**) is submitted herewith as Appendix A.

Upon review of Appendix A, it can be seen that no entry was made in the Firm's computerized docketing system for the above-identified application (serial number 09/701,228) on the dates described above. Specifically, these entries would have been sorted under the initials of the first attorney responsible for the application. In the present case, this attorney is Anthony A. Laurentano, having the initials AAL. However, upon review of the tabbed pages of Appendix A (tabbed with green flags), containing all docket matters for the Firm for the relevant dates described above (i.e., **March 1-31, 2001** through **April 1-30, 2001**), it can be seen that no docket reminder for responding to a notification of Missing Requirements in the above-identified application (USSN 09/701,228) appears on any of these pages.

In addition to the above-described *computerized* docketing system, the Firm, also maintained a second *manual docketing system* whereby all docket dates for the Firm, including due dates for responding to Office Actions received from the Patent and Trademark Office, were entered in chronological order into a docket book on a hard drive. Once an Office Action was received by the Firm and the due date (including any available extensions) for responding to the Office Action was determined, an entry was manually typed into the docket book on the page(s) corresponding to the due date(s) for responding to the Office Action. The entry typed into a backup docket book on the hard drive describes the type of response due (e.g., missing

requirements and surcharge), the serial number of the patent application in which the response is due, and the initials of the attorney(s) responsible for handling the response.

Accordingly, if, in the above-identified application, a notification of Missing Requirements had been received by the Firm having a mailing date of **February 21, 2001**, and having a response period of one month from the date of mailing, then the following information would have been entered in the Firm's backup docket book within one month of receipt, namely, **March 21, 2001**, (docket date), the latest by **August 21, 2001**, under 37 CFR 1.136(a) (due date for the required oath or declaration): (a) the serial number and internal reference number of the application; (b) the attorney(s) handling the application; (c) and a description of what was due (i.e., oath or declaration).

A copy of the Firm's backup docket book for the dates of **March 21, 2001** (the time frame for which the case should have been docketed) and **August 21, 2001** (The latest possible time frame for which an oath or declaration was due) is submitted herewith as Appendix B.

Upon review of Appendix B, it can be seen that no entry was made in the Firm's manual docketing system for the above-identified application (serial number 09/701,228) on the dates described above. This indicates that a notification of Missing Requirements dated **February 21, 2001**, in the above-identified application was never received by the Firm. In addition, at that time, the computerized docket printout was compared with the manual docket book by the chief Docket Administrator or Docket Administrator Assistant to check for any discrepancies between the two. This indicates that a notification of Missing Requirements dated **February 21, 2001**, in the above-identified application was *never received* by the Firm.

Since, the Office Action (e.g., Missing Requirements) was never received, Applicant respectfully requests that the Commissioner withdraw the holding of abandonment, and accept the enclosed Declaration, Petition and Power of Attorney for Patent Application that complies with 37 CFR 1.497 in place of reissuing the notification of Missing Requirements. Applicant's believe that no costs are due with regard to the filing of this petition. If fees are due, however, please charge them to our Deposit Account No. 12-0080.

If the Commissioner does not deem the petition under 37 CFR 1.181 to be persuasive, Applicant respectfully requests that this alternative petition to Revive an Unintentionally Abandoned Application under 37 CFR 1.137(b) be considered. Applicant respectfully submits

that the delay in submitting the Declaration, Petition and Power of Attorney for Patent Application that complies with 37 CFR 1.497 was unintentional, as evidenced by the foregoing comments.

If the Commissioner deems the Petition to Revive to be more appropriate, then Applicant authorizes that payment in the amount of \$640.00 pursuant to 37 CFR §1.17(m) to cover the petition fee and charged to Applicants Deposit Account No. 12-0080. The enclosed fee and reply are deemed to be proper, as required by 37 CFR §1.137(b). Please charge any underpayments or credit any overpayments associated with the issue fee and the petition fee to our Deposit Account No. 12-0080. A duplicate of this sheet is enclosed for that purpose.

Applicant respectfully requests that the present application be reinstated, and passed to examination.

If there are any questions concerning the petition to Withdraw the Holding of Abandonment, or the Petition to Revive the Commissioner or a selected delegate is invited to telephone Applicant's representative at the telephone number listed below.

Respectfully submitted,

LAHIVE & COCKFIELD, LLP

**This Page is Inserted by IFW Indexing and Scanning  
Operations and is not part of the Official Record**

**BEST AVAILABLE IMAGES**

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images include but are not limited to the items checked:

- ☐ **BLACK BORDERS**
- ☒ **IMAGE CUT OFF AT TOP, BOTTOM OR SIDES**
- ☐ **FADED TEXT OR DRAWING**
- ☐ **BLURRED OR ILLEGIBLE TEXT OR DRAWING**
- ☐ **SKEWED/SLANTED IMAGES**
- ☐ **COLOR OR BLACK AND WHITE PHOTOGRAPHS**
- ☐ **GRAY SCALE DOCUMENTS**
- ☐ **LINES OR MARKS ON ORIGINAL DOCUMENT**
- ☐ **REFERENCE(S) OR EXHIBIT(S) SUBMITTED ARE POOR QUALITY**
- ☐ **OTHER:** \_\_\_\_\_

**IMAGES ARE BEST AVAILABLE COPY.**

**As rescanning these documents will not correct the image problems checked, please do not report these problems to the IFW Image Problem Mailbox.**
